Highly motivated and enthusiastic web developer seeking an entry-level or intern position to leverage my technical skills and passion for web development in a dynamic and collaborative environment.

Education:

Bachelor of Science in Applied Artificial Intelligence at TH Rosenheim

Skills:

- Programming Language: JavaScript
- Web Development: HTML5, CSS3, Tailwind, Bootstrap, React, Next, Node, Express, ThreeJs
- Version Control: Git & GitHub
- Database Management: MongoDB, PostgreSQL
- CI/CD, Deployment
- Problem-Solving and Analytical Skills
- Strong Communication and Collaboration Abilities
- Ability to Learn and Adapt Quickly

Other Technologies:

- Docker, AWS Basic, JIRA, Scrum Project Management, Digital Ocean, Firebase, Strapi

Projects:

- Chat Application (https://schatapp-75b8f6961632.herokuapp.com)

  User Authentication and Management System:

  - Users are able to sign up and log in to the system.

  - User authentication is managed using JSON Web Tokens (JWT) for enhanced security.

Admin Privileges:

  - Administrators have the authority to create new user accounts within the system.

  - Administrators are also capable of deleting user accounts when necessary.

Persistent User Sessions:

  - The browser retains the ability to recall a user's logged-in state through the use of a session token.
